Rival Me This: 3 Key Things to Consider When Building Low Latency Trading Strategies

Rival Me This | 3 Key Things to Consider When Building Low Latency Trading Strategies

Check out our new video information series, "Rival Me This," where CEO Rob D'Arco provides insight into topics trending in the industry and addresses commonly asked questions from our users and partners.

In our latest video, "3 Key Things to Consider When Building Low-Latency Trading Strategies," we highlight the importance of memory management, threading, and measuring system latency. Our development platform, Rival API, allows you to easily

IN THE KNOW: RIVAL NEWS

Rival Systems Reduces Latency by 25 Percent, Widening Gap with Competition

March 9, 2016

Chicago-based Rival Systems (Rival), a trading software company established last year, announced today that the latest version of its platform further reduces latency by 25 percent. The significant speed increase improves on a platform already widely regarded as the fastest in the industry. [Read More](#)

Rival Now Offers Access to ICE Futures Markets

February 16, 2016

Chicago-based Rival Systems (Rival), a trading software company established last year, announced today that it now provides ICE Futures U.S. and ICE Futures Europe products on its Rival Trader platform, giving its users access to the diverse range of futures and options on futures trading on those exchanges. [Read More](#)

Rival Systems Adds Access to Eurex Products on Rival Trader

January 20, 2016

Chicago-based Rival Systems (Rival), a trading software company established last year, today announced that users of its Rival Trader platform can now access the full range of listed products on Eurex, the international derivatives marketplace. The move is the first step in the company's planned expansion into Europe this year. [Read More](#)

incorporate these considerations into your trading strategy. If you're ready to take your trading to the next level, contact our sales team to schedule a walk-through. [View Video](#)
