Trade Across Asset Classes & Exchanges On a Single Platform

Featuring best-in-class functionality, Rival One offers active traders secure, direct market access to multiple asset classes, exchanges, and brokers from a single platform with one licensing fee.

Traders often require several systems to trade multiple asset classes, resulting in higher costs and difficulties in scaling their business. With Rival One, users can reduce costs, streamline processes, and scale effortlessly by consolidating to one ultra-low latency, cloud-based platform to trade futures, equities, options, and crypto.

- // LOW LATENCY SPREADER
- // EXECUTION & ORDER ROUTING
- // EXCHANGE SIMULATION
- // CLOUD BASED, FULLY HOSTED
- // ORDER & POSITION MANAGEMENT
- // OUT-OF-THE-BOX ALGOS
- // NORMALIZED MARKET DATA
- // ADVANCED OPTIONS PRICING AND EXECUTION
